Sustainable fishing: Attention is paid to stock-friendly fishing and sustainable fishing methods.

Sustainable agriculture: These dishes are made from food-stuffs that ensure the regional origin of the meat, for example. The husbandry of the animals complies with the Animal Welfare Act and is appropriate to the species. Genetically modified animal feed is prohibited and the animal feed must consist of sustainably produced animal feed. Growth accelerators, performance-enhancing drugs and antibiotics are also prohibited. For the plant products used, no synthetic pesticides or easily soluble mineral fertilizers may be used. Ionising radiation for preservation purposes is not used, nor is genetic engineering.

Fairtrade: with fair trade ingredients

Vegetarian: Dishes are prepared without fish and meat ingredients. Dairy products and egg may be included.

Vegan: Dishes are prepared exclusively from vegan ingredients. No animal raw materials are included.

Climate meal: The climate meal is made up of fresh, entirely plant-based and sustainable products. In addition, even more attention is paid to seasonality. Prefabricated products, rice and French fries are not used. No frozen products, dried products or canned goods are used either. Cereal products such as spelt, buckwheat, bulgur, millet and amaranth or other protein foods such as nuts, vegetables and vegetable oils are essential components of the climate meal.

We use iodised table salt in the production of our dishes.

With EU Regulation No. 1169/2011, from 13 December 2014, foods and ingredients that trigger allergies and intolerances must be labelled in addition to authorised additives. Allergens will be listed if the designated substances, or products made from these substances, are included as an ingredient in the end product.

Despite careful production of our dishes, traces of other substances used in the production process in the kitchen, or already contained as traces in the delivered food, may be present in addition to the labelled ingredients.
